Tech Sergeant Gale Adam's final flight over the North Pole is supposed to be routine; instead it changes her destiny. Transformed by the Fates, tossed out of her KC-135, Gale is alone in the desolate arctic wilderness. Cursed with the power to destroy all she loves, can she prevent elemental Nitro from extinguishing her home, her family and their future?

Humans feared the power of the elementals, so they locked them away. In the process they altered the balance of nature.

800 years later, the elements have awakened. Maddened by centuries of imprisonment, these powerful beings crave vengeance. Three unsuspecting women will have to soothe the savage forces before it's too late.

One will find rebirth in the flames that take her life.

One Night To Burn

One will meld with the sea that seeks to claim her.

When the Sea Burned

One will find a love that shakes the earth itself

Scorched Earth
