After 20 years of coming together four times a year for a weekend of intense work on themselves, working specifically on the issues that confront male healers, all six of the founding members of the Chiron Brotherhood, as they called themselves, decided to open up and tell all. Each has an amazing story to tell and the book makes compelling reading for both men and women. Their intention was to encourage other men who want to grow spiritually and emotionally to come together and do something like it. The road is challenging but the rewards are great as you will see when you read each member's recollections of what happened for them over the 20 years and the effect it has had on their lives.
