**Mapping Cyberspace** Martin Dodge, Rob Kitchin

*Mapping Cyberspace* is a ground-breaking geographic exploration and critical reading of cyberspace, and information and communication technologies. The book:

- \* provides an understanding of what cyberspace looks like and the social interactions that occur there
- \* explores the impacts of cyberspace, and information and communication technologies, on cultural, political and economic relations
- \* charts the spatial forms of virtual spaces
- \* details empirical research and examines a wide variety of maps and spatialisations of cyberspace and the information society
- \* has a related website at **<http://www.MappingCyberspace.com>**.

This book will be a valuable addition to the growing body of literature on cyberspace and what it means for the future.
