A Study of Vermeer, Revised and Enlarged edition Edward Snow

Edward Snow's *A Study of Vermeer*, first published in 1979 and here presented in an expanded and elaborately revised version, starts from a single premise: that we respond so intensely to Vermeer because his paintings reach so deeply into our lives. Our desire for images, the distances that separate us, the validations we seek from the still world, the traces of ghostliness in our own human presence—these, the book proposes, are Vermeer's themes, which he pursues with a realism always in touch with the uncanny. As Snow traces the many counterpoised sensations that make up Vermeer's equanimity, he leads us into a world of nuances and surprise.

A Study of Vermeer is passionate and visual in its commitments. Snow works from the conviction that viewing pictures is a reciprocal act—symbiotic, consequential, real. His discussions of Vermeer's paintings are conducted in a language of patient observation, and they involve the reader in an experience of deepening relation and ongoing visual discovery. The book has been designed to facilitate this process: over eighty illustrations, fifty-nine in color (including two full-page foldouts), accompany the text so that the details Snow illuminates will be continually in view. Here is a book to enthrall not only students of Vermeer, but anyone who feels the exhilaration of what Cézanne called "thinking in images."

From reader reviews:

William Burns:

A lot of people always spent all their free time to vacation or maybe go to the outside with them family or their friend. Do you realize? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long. In order to try to find a new activity that is look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book which you read you can spent all day every day to reading a e-book. The book A Study of Vermeer, Revised and Enlarged edition it is extremely good to read. There are a lot of those who recommended this book. These folks were enjoying reading this book. When you did not have enough space to deliver this book you can buy often the e-book. You can m0ore simply to read this book from the smart phone. The price is not to cover but this book provides high quality.

Samuel Brooks:

The reason? Because this A Study of Vermeer, Revised and Enlarged edition is an unordinary book that the inside of the reserve waiting for you to snap the idea but latter it will surprise you with the secret this inside. Reading this book beside it was fantastic author who all write the book in such awesome way makes the content inside of easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you for not hesitating having this any longer or you going to regret it. This book will give you a lot of positive aspects than the other book have got such as help improving your talent and your critical thinking means. So , still want to delay having that book? If I were you I will go to the publication store hurriedly.

Tracy Painter:

Playing with family in the park, coming to see the ocean world or hanging out with buddies is thing that usually you may have done when you have spare time, and then why you don't try factor that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love A Study of Vermeer, Revised and Enlarged edition, you are able to enjoy both. It is very good combination right, you still would like to miss it? What kind of hang type is it? Oh come on its mind hangout people. What? Still don't get it, oh come on its referred to as reading friends.

Scott Lowe:

A lot of e-book has printed but it takes a different approach. You can get it by net on social media. You can choose the very best book for you, science, comedy, novel, or whatever by simply searching from it. It is referred to as of book A Study of Vermeer, Revised and Enlarged edition. You can add your knowledge by it. Without making the printed book, it could possibly add your knowledge and make anyone happier to read. It is most critical that, you must aware about publication. It can bring you from one spot to other place.
