Redrawing the Map of Early Modern English Catholicism (UCLA Clark Memorial Library Series)

Lowell Gallagher

The tumultuous climate of early modern England had a profound effect on its Catholic population's domestic life, social customs, literary inventions, and political arguments. *Redrawing the Map of Early Modern English Catholicism* explores the broad spectrum of the early modern English Catholic experience, presenting fresh and often startling assessments of the most problematic topics in post-Reformation English Catholicism.

The contributors to this volume – all leading or rising scholars of early modern studies – conceptualize English Catholicism as a hazardous series of contested territories divided by shifting boundaries, requiring Catholics to navigate with vigilance and diplomacy their status as 'insiders' or 'outsiders.' This collection also presents new ways to understand the connections between reformist and Catholic inflections in the emerging canon of English poetry, despite the eventual marginalization of Catholic poets in English literary history. *Redrawing the Map of Early Modern English Catholicism* ably demonstrates the profoundly experimental as well as recuperative character of early modern English Catholicism.
