Expert Opinions in Female Pelvic Medicine and Reconstructive Surgery Sandip P., M.D. Vasavada, Howard B., M.D. Goldman

Expert Opinions in Female Pelvic Medicine and Reconstructive Surgery covers a range of female urologic disorders, using a case-based approach to provide timely guidance on diagnosis and management. Forty cases of varying complexity are introduced by the editors and illustrated where appropriate by clinical findings. One or two expert reviewers then present their protocols for the management of each case, and their projected prognosis. Sometimes these views may diverge, as they do in practice. In all cases therefore, the editors add a final commentary to those of the expert reviewers, to summarise current management protocols and guide the reader towards an optimum treatment plan. * Presents 40 urological cases * Expert reviewers present their protocols for each case and the editors summarise the current management procedures * Clinical findings are presented with images and urological graphs * Provides an expert guide to the diagnosis and management of female urologic disorders
