In this book the Sanskrit is transliterated into English script. The English alphabetical order is used throughout to make it easier for those who struggle with the order of the traditional dictionary. A considerable vocabulary is included which provides most of the words used in secondary school examinations. Many tables are supplied for nouns and verbs etc. All the information for each topic is gathered together so that one doesn't have to endlessly scour through the book. The book has been in use (and on trial) for a number of years and students find it a very handy reference. The book is particularly interesting and useful for those with an interest in Indian Philosophy.
