We have all heard the term Rubenesque as a compliment for plus-sized women. The baroque painter Sir Peter Paul Rubens was fond of painting women of the day that were curvaceous and full-figured. The men in his art were not. What is the comparable term for men? Because not every gay man is obsessed with twinkles who list the number of visible rib bones on their Grindr profile. Or men who can remember the number of reps at the gym but not their phone number. Some of us appreciate buying in bulk and that includes looking for love. Or just plain sex. Thank goodness for Bear culture which embraces girth. During Bear Week in Provincetown the stores do not even bother to sell clothes smaller than an XL and a man's virility is often like the potency of moonshine: the more Xs on the jug the better, so XXXL is a chub in high demand.

It has taken too long for an erotica anthology to feature such men. It is our hope that readers who felt denied of attention and affection will read these stories and realize that love has no weight limit, no threshold, and neither should self-esteem.
