The danger of deportation hangs over the head of virtually every noncitizen in the United States. In the complexities and inconsistencies of immigration law, one can find a reason to deport almost any noncitizen at almost any time. In recent years, the system has been used with unprecedented vigor against millions of deportees.

We are a nation of immigrants--but which ones do we want, and what do we do with those that we don't? These questions have troubled American law and politics since colonial times.

*Deportation Nation* is a chilling history of communal self-idealization and self-protection. The post-Revolutionary Alien and Sedition Laws, the Fugitive Slave laws, the Indian "removals," the Chinese Exclusion Act, the Palmer Raids, the internment of the Japanese Americans--all sought to remove those whose origins suggested they could never become "true" Americans. And for more than a century, millions of Mexicans have conveniently served as cheap labor, crossing a border that was not official until the early twentieth century and being sent back across it when they became a burden.

By illuminating the shadowy corners of American history, Daniel Kanstroom shows that deportation has long been a legal tool to control immigrants' lives and is used with increasing crudeness in a globalized but xenophobic world.
