Soul Power: Science, Spirituality and the Search for the Soul

Guy McKanna

Soul Power: Science, Spirituality and the Search for the Soul Guy McKanna

A monumental work, says Dr. Valerie Hunt, former professor at Columbia University, University of Iowa and University California, Los Angeles, and author of Infinite Mind. For thousands of years, people have questioned how the human soul works and expresses spirituality. Now, for the first time there is an objective answer grounded in science that explains spiritual phenomena. Soul Power: Science, Spirituality and the Search for the Soul brings together recent advances in neurobiology, physics and psychology and reconciles them with ancient texts and religious scriptures in a revealing new study of the soul. This groundbreaking book is the most comprehensive account of the science involved in spirituality. It details how some scientists have been able to recreate spiritual experiences in people, regardless of their beliefs. Soul Power's examination of what our heightened spiritual senses perceive has been described as the best scientific evidence so far for the existence of God.
