## **Symbols of Numerology** Julia Seton

Well written, with a subtle warmth, Dr. Seton's classic work on numerology has been out of print for years and rightly deserves to be reborn for the new generation. First, it has basic instruction in deriving the numbers and their meanings. Second, it has details about love, marriage, divorce, business luck, malefic symbols, the mystic power of gems and many other items of interest to the adept numerologist. Third, using numerology as her context, Dr. Seton has created a beautiful statement of spiritual philosophy and practice. -- from book's back cover
