Enlightening the World: Encyclopedia, The Book That Changed the Course of History Philipp Blom

In 1777 several of the world's greatest men gathered together to create a book that would champion rationalism, free thinking, and secularism--the *Encyclopédie*. Such leading minds as Diderot, Rousseau, and Voltaire conceived of a work that would tear down the social order dominated by the Crown and Church, a brave act at a time when heresy could still be punished by death. During the years it took to produce all twenty-seven volumes, the writers faced exile, jail, and censorship. But when they were done, they had created a book that would provide the foundation for the Enlightenment and change the world forever. Novelist and historian Philipp Blom presents the story behind the sixteen-year struggle to create the *Encyclopédie*, the men who wrote it, the powerful forces that tried to suppress it, and the tremendous impact it had on the world.
