If You Can Count to Four: How to Get Everything You Want Out of Life! James Breckenridge Jones

How To Get Everything You Want Out Of Life

There are basic laws in this universe that will work for you if you know how to apply them. *They work for anyone who knows they exist and how to use them.*

The law of electricity works for all of us. We can burn your house down with electricity or you can light your home with it. You don't have to be a genius to do it. A child three years old can push a button and turn the lights on.

Millions of people have been taught to believe that the rules of success are indeed so very difficult and complicated that surely they could never learn them.

I found out that anyone can be genuinely successful if he will learn the exact same "rules" that the successful people learned and use them.

I'm going to lay down a simple basic way and you can have anything material you want to have and you can be anything you want to be. These are scientific things that work every time if you will do it in a simple way.

We can decide what we want in life in a home, in an automobile, in the clothes we wear, anything that we want in this world--any type of furniture, any type of a home, any type of an anything.

Regardless of your background, your lack of education, your lack of knowing anyone who is supposed to be important, your lack of funds, or any other seeming lack, *you can still be what you want to be and have what you want to have.*

If you have just one little desire right now that you wish fulfilled and you don't know exactly how to go about it, then you are ready to learn how to "Count to Four".

Phase One which is to identify what you want.

Write it down. Define it. Describe it.

Develop a keen, clear, distinct mental picture of exactly what you want.

Phase Two is also just a mental exercise, and it doesn't cost you one red penny. **"Pretend" that you already are what you want to be, and that you already have what you want to have.**

Ask yourself, "How would I feel if I were already the person I want to be? If I already had the things that I have written down on my Phase One list, how would I feel? What would I do? Where would I be right now?" Assume the feeling of the dream fulfilled.

Phase Three of this technique is "down deep inside you." Pay no attention to them whatsoever, but keep

your thoughts on Phase One and Phase Two. **Keep identifying your desires, and keep "living in the feeling of having already attained them."** Learn to say "yes" or "no." Yes, you can control your attention units. You can learn to say "no" to anything which will hinder the fulfillment of your dreams.

Phase Four is the HOW!

How do you get from here and now, to there, and what you want to be, and have what you want to have and not cost you anything?

How many of you have ever had an idea come to you for "out of the blue?" All of you have, I am absolutely sure. Well, how many of you know just where the "blue" is located?

The "blue" is **your subconscious mind.**

Your Subconscious Mind begins to function in a manner that it never has before. It begins to add things up for you. It tells you in the form of ideas, out of the "blue" and in the form of feelings and urges that you should begin to study in a certain field, perhaps attend a series of lectures, or read certain books, or...

You then, one day, find yourself in a new position that you enjoy very much and you are happier than you have ever been in your life. **Your dream is a reality.**

We have been told, however, that an education is indispensable and absolutely necessary before one can be successful. *That is not so.*

"If you can count to four", you can be anything you want to be and can have anything you want to have.
