Mustard Seeds, Shovels, & Mountains J.F. (Jim) Straw

J.F. (Jim) Straw began his business career when he was nine years old. Since then, his business activities have generated over \$500,000,000 in revenues.

In *Mustard Seeds, Shovels, and Mountains: How to Succeed Using Your Physio-Psychic Power* lies a powerful recipe for pulling yourself out of your daily doldrums and into the powerful, get-it-done person you were always meant to be! Right in the foreword, the author, Jim Straw, sets it out plainly for us: who in this world is successful and who isn't, with a clear, concise definition that everyone can understand. Further, he defines the rules for success and how our quest for independence, financial or otherwise, is both a journey and a personal exercise of determination and practice.

And that's just the foreword.

After beginning at the beginning, with who he is, his successes and the reasons why he has been successful, Jim Straw proceeds to detail in an easy to understand methodology, sometimes step by step, what precisely is your Physio-Psychic power and how you can tap into it. By spelling out what he did, how he did it and why he did it, Straw draws you an illustration of success that you can almost reach out and pin to the wall. He explains that there is no magic formula for success but that, instead, it is the brass ring that we can reach out and grab as we travel through life and learn its lessons. In these pages, you will grasp how success is something that YOU create. In order to have success, you need to get out and do something anything. Only then can you fully grasp success and own it.

Some of the most impactful portions of the book lie within the Faith and Failure??? chapters. Straw's approach to self-help is more of a hand up than a push forward. Analyzing and dissecting why we are not where we want to be has never been clearer than in the pages of *Mustard Seeds, Shovels, and Mountains*.
