Studies in Inherited Metabolic Disease: Lipoproteins Ethical Issues

Studies in Inherited Metabolic Disease: Lipoproteins Ethical Issues

captured for the published proceedings. Nevertheless, the two Supplements to this Journal (also available together as a hard-backed book) do, over the years, embrace many of the major aspects of the study of inborn errors of metabolism and can, particularly with the Short Communications section, be used as a way into the literature on specific new topics. We hope that with judicious selection of material these supplements will continue to provide, as did the Society's earlier annual publications, a balanced record of the present state of the subject in all its facets, a record of interest to those working in allied fields as well as to the specialist. R. J. Pollitt G. M. Addison R. A. Harkness The papers listed below were also presented at the meeting. Scripts were not available by the time of publication. 1. Tangier disease and related disorders of apolipoprotein AI. G. Assmann, Munster. 2. Contribution to Ethics Symposium by M. E. Pembrey, London.
