Darwin's Design Dilemma: How 20th Century Science supports the account of creation in Genesis

Lowell E. Coker PhD

Scientific discoveries in the 20th century confirm and support the historical account of origins in Genesis. The events of each of the six days of Creation are discussed from the viewpoint of undisputed science of many disciplines including particle physics, chemistry, biology, genetics, molecular biology, biochemistry and astronomy. The language and abundant illustrations have been chosen to make highly technical material understandable to the high school and adult reader. Consideration of the facts presented leads the reader to conclude that the account of origins in Genesis is accurate from the modern scientific viewpoint. Origins are the product of Intelligent Design by the Creator, God. Evolution is falsified in all its aspects by empirical science.
